

1. To create an account, the Applicant should click on the “[Create account here!](#)” - link right under the login form:

BRAIN <> CHAIN EN

Welcome to BrainChain

Email

Password

Log in

[Forgot your password?](#) [No account yet? Create account here!](#)

2. This opens a page with the 2 account types: register as an individual (“Applicant”) to manage your private degrees <> register as employee (“Company”) involved in various recruiting activities like sending out degree vetting requests to... Applicants!

BRAIN <> CHAIN EN

[Back](#)

What account do you want to create?

Applicant Company

For Applicant functionality, click on the “[Applicant](#)” button.

**Note:** you can register as both - e.g. with your professional <> private Email to separate your 2 roles. This has the advantage you would not drag along with you an Email of a previous employer as login even after you left the company. It also allows a Company to work with *functional* Emails if so desired.

3. The Applicant should enter his data, accept Software license agreement, and click "Count me in!":

BRAIN < > CHAIN EN

[Back](#) **Applicant account registration**

Please complete the data below to create your account

First name\*

Last name\*

Personal email\*

Phone number

Region\*

Country\*

I accept the terms of [the license agreement.](#) Count me in!

4. This leads to the following notification page:

BRAIN < > CHAIN Help EN

[← Return to login page.](#)

We sent you an activation mail. Click the link inside to complete this process.

5. An Email with an activation link is sent to the declared Email address. This link will lead the Applicant to the login page. The Applicant should enter a chosen password and click on " **Activate account** " :

6. This rounds off the *Applicant Registration* process, at which point the Applicant is lead to his Landing Page to start using BrainChain:
