

RESET PASSWORD

1. In case a User forgot their password, this can be reset via the “[Forgot your password?](#)” - link on the BrainChain home page (www.brainchainmission.org) :

BRAIN < > CHAIN EN

Welcome to BrainChain

Email
anchor@temp.org

Password
.....

Log in

[Forgot your password?](#)

Incorrect username or password

2. Next, the Email with which the account was set up, needs to be provided after which “[Restore](#)” can be clicked to issue a mail to that address with a password reset link:

BRAIN < > CHAIN EN

Please enter the email of the account to restore!

anchor@temp.org

Restore

3. Clicking the link brings up a page where the User can choose a new password:

The screenshot shows a web application interface with a dark header containing the text "BRAIN < > CHAIN" and a language selector "EN". The main content area features a light gray box titled "Reset password". Inside this box, there are two input fields: "New password*" and "Confirm password*", both containing masked characters (dots). A blue "Reset" button is positioned below the input fields.

4. After clicking "Reset", the new password is persisted and the User is redirected to the login page and where the new password can immediately be used.
